

# Vehicle Safety Inspection Program Bulletin

**ASED-015**

**Date:** March 07, 2023 (Original issued January 01, 2019)

**Bulletin:** All Inspection Station Personnel

**From:** Automotive Safety Enforcement Division

**RE:** **Approved Window Tint Meters For Vehicle Safety Inspections**

ASED has examined and approved the following five (5) Tint Meters for use at licensed inspection stations. except Class "B" and Class "T" stations which do not inspect motor vehicles, therefore have no requirements for glazing inspection. The Tint-Chek Pro is the newest approved tint meter in Maryland. These meters are in compliance with regulation COMAR 11.14.01.07A.(20). Window tint readings must be recorded on the appropriate report for all inspections and SERO certifications.

**NOTE:** MSIS users may record tint readings directly into the electronic inspection report. SERO certifications must be accompanied by the appropriate "Post Manufacture Window Tint Inspection Report" Form
