

Vehicle Safety Inspection Program Bulletin

ASED-015

Date: January 01, 2019

Bulletin: All Inspection Station Personnel

From: Automotive Safety Enforcement Division

RE: **Approved Window Tint Meters For Vehicle Safety Inspections**

ASED has examined and approved the following four (4) Tint Meters for use at licenced inspection stations. except Class”B” and Class”T” stations which do not inspect motor vehicles, therefore have no requirements for glazing inspection. These meters are in compliance with regulation COMAR 11.14.01.07A.(20). Window tint readings must be recorded on the appropriate report for all inspections and SERO certifications.

NOTE: MSIS users may record tint readings directly into the electronic inspection report. SERO certifications must be accompanied by the appropriate “Post Manufacture Window Tint Inspection Report” Form
