CRIME IN MARYLAND

2017 UNIFORM CRIME REPORT

GOVERNOR LARRY HOGAN

LT. GOVERNOR BOYD K. RUTHERFORD

COLONEL WILLIAM M. PALLOZZI

MARYLAND DEPARTMENT OF STATE POLICE

CENTRAL RECORDS DIVISION

IDA J. WILLIAMS, DIVISION DIRECTOR

UNIFORM CRIME REPORTING PROGRAM

March 11, 2019

The Honorable Larry Hogan
Governor
State House
Annapolis, MD 21401

Dear Governor Hogan:

In accordance with Public Safety Article, Section 2, Subsection 307 and 308, of the Annotated Code of Maryland, the Maryland Department of State Police is pleased to submit the 2017 Uniform Crime Report, Crime in Maryland. This publication represents the 43rd annual Crime in Maryland report.

The 2017 Crime in Maryland publication provides valuable information to law enforcement personnel, policy makers and interested parties to include those in academic, civic and research organizations. The statistics presented in this release are an indication of crime and criminal activities known to and reported by law enforcement agencies for 2017. The information presented focuses on the incidence of crime and provides an indicator over time of variations in crime trends.

Maryland law enforcement agencies contribute crime data to the Maryland Uniform Crime Reporting Program. Statistics pertaining to crime trends could not have been compiled without the dedication and cooperation of all police agencies, sheriff's offices and specialized law enforcement agencies throughout the State of Maryland. Contributions by Maryland law enforcement agencies to the Uniform Crime Reporting Program enable the Maryland Department of State Police to develop and present a comprehensive picture of crime in Maryland.

Sincerely,

William M. Pallozzi
Superintendent

WMP:IJW:kw

"Maryland's Finest"

Executive Summary

An annual release since 1975, <u>Crime in Maryland</u> reports crime statistics provided by Maryland Law Enforcement agencies to the State's Uniform Crime Reporting (UCR) Program under the Maryland Department of State Police. <u>Crime in Maryland</u> details crime incidents, clearance rates, arrests, law enforcement officers killed or assaulted, and law enforcement employee data. The statewide UCR Program was developed to report crime in Maryland to the National UCR Program administered by the Department of Justice, Federal Bureau of Investigation (FBI). The Maryland program has evolved to collect data on domestic violence, hate bias, and carjacking incidents and arrests. Reports and statistics pertaining to hate bias incidents and their associated arrests are released in a separate Maryland Department of State Police publication.

The UCR Program collects information on crimes that have been selected as an index to represent crime in the United States. These index crimes are murder, rape, robbery, aggravated assault, breaking or entering, larceny-theft and motor vehicle theft. Although not an index crime, data pertaining to the crime of arson is also included.

There were 167,093 total crime incidents reported in 2017 compared to 168,538 in 2016. The crime index total decreased one percent in 2017 when compared to 2016. Violent crime increased six percent. The violent crime group consists of murder, rape, robbery and aggravated assault. Property crime decreased two percent. The composition of the property crime group is breaking or entering, larceny-theft and motor vehicle theft. The summary for the 2017 index crimes is as follows:

Murder	+ 6.5%	Breaking or Entering	- 4.4%
Rape	- 2.3%	Larceny-Theft	- 1.7%
Robbery	+ 4.4%	Motor Vehicle Theft	- 2.1%
Aggravated Assault	+ 7.7%	Arson	- 5.4%

There were 200,167 arrests reported in 2017 compared to 202,108 in 2016. Arrests in Maryland decreased one percent in 2017, when compared to 2016. Of the total arrests, 178,750 were adults and 21,417 were juveniles. When compared to adult and juvenile arrests in 2016, this is a decrease of 1.3 percent and an increase of 1.8 percent respectively. Arrests for drug offenses totaled 35,339 in 2017. This is a seven percent increase when compared to drug offense arrests reported in 2016. In 2017, 18,573 persons were arrested for driving under the influence. This is a decrease of four percent when compared to driving under the influence arrests reported in 2016.

One Maryland law enforcement officer died in the line of duty during 2017. There were 2,449 Maryland law enforcement officers assaulted in 2017. This represents a decrease of eight percent over similar assaults reported in 2016 and equates to 16 percent of full time law enforcement officers employed in Maryland.

In 2017, there was a five percent increase in the number of full-time law enforcement officers in Maryland. There were 16,436 full-time law enforcement officers in 2017 compared to 15,652 in 2016. This equated to 2.7 full-time law enforcement officers per 1,000 of population.

INTRODUCTION

BACKGROUND

The Maryland UCR Program is one component of the State's Criminal Justice Information System (CJIS). It establishes a method to collect, evaluate and process uniform statistical data on statewide crime. The Maryland UCR Program provides a means to consolidate the relevant data into a statewide report that can be provided to state, local and federal government agencies.

NATIONAL UNIFORM CRIME REPORTING PROGRAM

The counterpart of the Maryland UCR Program is the National UCR Program which is under the direction of the FBI. The National Program resulted from a need for a uniform compilation of crime statistics nationwide. Uniform Crime Reports were first collected in 1930 after being developed by a committee of the International Association of Chiefs' of Police (IACP). The IACP continues to serve in an advisory capacity to the FBI in the current operation of the program.

Crime statistics voluntarily submitted by individual law enforcement agencies from all 50 states are presented annually in the FBI's publication entitled Crime in the United States.

MARYLAND UNIFORM CRIME REPORTING PROGRAM

The FBI has actively assisted individual states in the development of State UCR Programs compatible with the National Program. Maryland took advantage of this assistance in 1972 and was able to develop its own program by 1975.

The Maryland UCR Program became operational January 1, 1975. This program consists of the uniform classification, review, compilation and analysis of crime statistics reported by all law enforcement agencies of the State pursuant to the guidelines and regulations prescribed by law.

The responsibility and authority for the collection and dissemination of UCR data is assigned to the Maryland Department of State Police in accordance with Public Safety Article, Section 2, Subsection 307 and 308, of the Annotated Code of Maryland.

PURPOSE AND OBJECTIVES

In keeping with the recommendation of the President's Commission on Law Enforcement and the Administration of Justice, the Maryland UCR Program was planned for eventual growth into a complete and integrated offender based Criminal Justice Information System. Under this program, each offender arrested in Maryland is tracked through the entire criminal justice system from time of arrest, through the courts, to the correctional system where their exit (parole, expiration of sentence, etc.) is recorded. In this manner, a complete "criminal history" on individual offenders is available for use by the police, courts and correctional agencies in Maryland. In addition, statistical data derived from the CJIS Program provides assistance in determining the overall efficiency of the Criminal Justice System in Maryland and will make effective management studies possible.

The fundamental objectives of the Maryland UCR Program are:

1. Inform the Governor, legislature, other governmental officials and the public on the nature, magnitude and trends of crime in Maryland.

2. Provide law enforcement administrators with crime based statistics for administrative and operational use.

3. Determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement.

4. Provide base data and statistics to measure the workload and effectiveness of Maryland's Criminal Justice System.

5. Provide base data and statistics to measure the effects of prevention and deterrence programs.

6. Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.

7. Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.

8. Provide the FBI with complete UCR data to be included in the national crime reports.

REPORTING PROCEDURES

Under the Maryland UCR Program, law enforcement agencies submit specified Uniform Crime Reports. The necessary information for each of the required reports is gathered from each agency's record of complaints, investigations and arrests.

Crime data and information is submitted to the Maryland UCR Program monthly by state, county and municipal law enforcement agencies on the number of offenses known to them in the following crime categories:

  (1)   Criminal Homicide
  (2)   Forcible Rape
  (3)   Robbery
  (4)   Assault
  (5)   Breaking or Entering
  (6)   Larceny-Theft
  (7)   Motor Vehicle Theft
  (8)   Arson*

The count of offenses is taken from the record of complaints received by law enforcement agencies. This information comes from victims, witnesses, and other sources which are discovered by law enforcement during their own operations. Complaints determined by subsequent investigation to be unfounded are eliminated from the count. The resulting number of "actual offenses known to law enforcement agencies" in these crime categories are reported without regard for whether anyone is arrested, stolen property is recovered, local prosecution policies or any other consideration.

Reported offenses are recorded by the municipality and county in which they occur. Municipal law enforcement agencies report those crimes which occur within their municipalities. County agencies report those crimes which occur in the counties outside the cities.

A supplemental report is also submitted each month showing the value of stolen and recovered property, the type of property and the type of offense within a crime category in which it was taken. This report also shows the number of stolen vehicles recovered locally and by other jurisdictions. In addition, each agency reports the number of persons arrested by them or other agencies for crimes which have occurred within their jurisdiction. The arrest report also shows the age, sex and race of those arrested and the disposition of juveniles by the arresting agency. Additional information is submitted on homicides, domestically related crimes, officer assaults, and "carjackings" regarding the victim and offender information, weapons used, circumstances, etc. In addition, police employee data is collected on an annual basis.

Crime coding changes that occur after an incident is initially reported may not be reflected in this report.

*Monthly arson reports are submitted for law enforcement agencies by the Office of State Fire Marshal and designated county agencies to the Maryland UCR Program.

REVIEW PROCESS

A major concern in the collection of crime statistics for law enforcement agencies throughout the state is the uniformity and accuracy of data received. Program aides, such as guides and instructional classes, do not necessarily guarantee the accuracy of the reports submitted by the contributors, therefore, additional controls are necessary.

Each report received by the UCR section is recorded, examined and reviewed for mathematical accuracy and reasonableness. The review process includes numerous checks to ensure the validity of information. The elimination of duplicate reporting by individual contributors receives particular attention. Minor errors are corrected by telephone contact with the contributors, while substantial variations and errors are adjusted through personal contacts. The personal contacts are invaluable to the accuracy and quality of reporting. Field Records Representatives are engaged in a constant educational effort by revisiting UCR definitions and the classifying and scoring process with the contributor. These contacts provide a vital link toward ensuring accuracy for the UCR Program.

POPULATION DATA

The computation of crime rates, as they appear in this report by municipality, county and state, are based on the latest available population estimates for the year. These population estimates are provided by the FBI through the cooperation and assistance of the United States Bureau of Census.

LIMITATIONS OF A UNIFORM CRIME REPORTING PROGRAM

Information currently collected by the Maryland UCR Program is generally the same as that gathered by the National UCR Program, and the methods of classifying and scoring offenses and arrests are the same. This readily enables comparisons with other states and with the nation, as a whole. However, there are limitations to the information collected which should be clearly understood before any conclusions are drawn from the UCR data presented in this report.

The main goal of the UCR Program is to furnish police administrators with a measure of their activities and operational effectiveness as indicated by the number of reported offenses, arrests, clearances, etc.

A first step in the control of crime is to ascertain the true dimensions of the problem; however, present statistics, as gathered by the UCR Program, measures neither the real incidence of crime nor the full amount of economic loss to victims. The Maryland UCR Program collects crime under a summary based reporting system, therefore, not all crimes occurring in one incident are captured. Information regarding number of offenses, clearances, value and type of property stolen and recovered property are collected only for the eight Part I offenses. For Part II offenses, the only information submitted is the number of arrests for these crimes. Consequently, there is no record of the actual number of Part II offenses occurring, nor is there a calculation made for property loss.

The Crime Index does not explicitly take into account the varying degrees of seriousness of its seven components (excluding arson). Each crime receives the same weight as it is added to the index; consequently, an auto theft is counted the same as a murder and an aggravated assault is weighed equally with an attempted breaking or entering. Any review of crime must consider the volume, rate and trend of each offense that comprises the index and the relationship between these seven crimes*.

The Maryland and National UCR Programs are designed to measure offenses committed and persons arrested. Difficulties can arise if this distinction is not kept clearly in mind. Crimes relate to events and arrests relate to persons. Unlike traffic violations where there is usually one event, violation and offender, a single criminal act can involve several crimes, offenders and victims. Relating specific crimes to a criminal or offense to evaluate characteristics of those arrested is generally beyond the scope of the present UCR Program.

Juvenile crime and arrest statistics can be an area of misinterpretation. The degree of juvenile involvement in cleared offenses is often misunderstood because the juvenile clearance indicator is recorded only when juveniles are exclusively involved. When both adults and juveniles are subjects in a clearance, the juvenile participation is not reported under UCR guidelines.

*Arson is not used at this time in computing the Crime Index.

This page intentionally left blank

CRIME FACTORS

Statistics compiled under the UCR Program from data submitted by Maryland law enforcement agencies projects a statewide view of crime. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present to some degree in every community. Their presence affects in varying degrees the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern. The police are limited in their role to its suppression and detection. As stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in their report "The Challenge of Crime in a Free Society" (1967 - Page 92):

> "But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the criminal justice system is only one part of the government; and the government is only one part of society. In so far as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time."

Listed below are some of the conditions which affect the type and volume of crime that occurs from place to place:

Density and size of the community population and the metropolitan area of which it is a part.

Composition of the population with particular reference to age, sex and race.

Economic status of the population.

Relative stability of the population including number and ratio of seasonal visitors, residents, commuters and other transients.

Climate and seasonal weather conditions.

Educational, recreational and religious characteristics.

Standards governing appointments to the police force.

Policies of the prosecuting officials and the courts.

Attitude of the public toward law enforcement problems.

The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

Organization and cooperation of adjoining and overlapping police jurisdictions.

CRIME INDEX OFFENSES

The crime counts listed in this publication are actual offenses established by police investigations. When police receive a complaint of a crime and the follow-up investigation discloses no crime occurred, it is "unfounded." In 2017, police investigations that were "unfounded" represented one percent of all the complaints concerning index offenses. When comparing individual index offenses to the number reported, "unfounded" offenses ranged from less than one percent in the larceny-theft category to 14 percent in the rape category.

A total of 167,093 actual index offenses were reported to law enforcement agencies in Maryland during the calendar year 2017. This represents a decrease of one percent when compared to the 2016 total of 168,538 crime index offenses. In this publication, the calculations for averages may not add to the total due to rounding.

An analysis of all index offenses by month in 2017 shows that August had the highest frequency of occurrence, and March had the lowest.

The crime index offenses are serious crimes by their nature, volume, or frequency of occurrence. They are categorized as violent crimes, which includes murder, forcible rape, robbery and aggravated assault, or as property crimes, which includes breaking or entering, larceny-theft and motor vehicle theft.

VIOLENT CRIME

Violent crimes involve the element of personal confrontation between the perpetrator and the victim; consequently, they are considered more serious than property crimes because of their very nature. These offenses accounted for 18 percent of the total Crime Index for 2017, compared to 17 percent in 2016. Violent crime increased six percent when compared to 2016.

PROPERTY CRIME

The number of property crimes reported in 2017 was more than four times greater than the number of violent crimes reported. As a group, property crimes made up 82 percent of the total Crime Index in 2017, compared to 83 percent in 2016. Property crime decreased two percent when compared to 2016.

RATES

Crime Rates relate the incidence of crime to the resident population. Many other factors, which may contribute to the volume and type of crime in a given jurisdiction, are not incorporated here, but are shown in the section entitled, "Crime Factors."

In 2017, the Crime Rate for Maryland was 2,760.9 victims for every 100,000 population. This represents a one percent decrease in the crime rate when compared to the 2016 rate of 2,801.3

The 2017 Crime Rate for the Violent Crime group was 507 victims per 100,000 inhabitants, a five percent increase compared with the 2016 rate of 482. The Property Crime group had a rate of 2,254 victims, a three percent decrease when compared to the 2016 rate of 2,319.

CLEARANCES

For UCR purposes, a crime is cleared when police have identified the offender, have evidence to charge the person and actually take them into custody. Solutions of crimes are also recorded in exceptional instances where some element beyond police control precludes formal charges against the offender, such as the victim's refusal to prosecute or local prosecution is declined because the subject is being prosecuted elsewhere for a crime committed in another jurisdiction. The arrest of one person can clear several crimes or several persons may be arrested in the process of solving one crime.

Maryland Law Enforcement Agencies cleared an average of 24 percent of all Index Offenses reported to them in 2017, the same as in 2016.

Violent Crimes recorded a 44 percent clearance rate in 2017, compared to a 46 percent clearance rate in 2016. The Property Crime group experienced a 19 percent clearance rate in 2017, the same as in 2016.

Considered individually, the 2017 Violent Crime clearance rate was determined to be 60 percent of the Murders, 50 percent of the Rapes, 29 percent of the Robberies and 53 percent of the Aggravated Assaults. The Property Crime clearance rates were 17 percent for Breaking or Entering, 20 percent for Larceny-Theft and 11 percent for Motor Vehicle Theft.

The relatively high clearance rate for Violent Crimes as compared to Non-Violent Property Crimes is in part attributable to the volume difference between the two. Property Crime volume is much greater than that of Violent Crime, and police investigation of Violent Crime is usually more intense.

JUVENILE CLEARANCES

A Juvenile Clearance is the clearance of an offense in which all of the offenders involved were under the age of 18. If one of the offenders was over 18 years of age, the clearance of that offense is not considered a Juvenile Clearance. In 2017, such Juvenile Clearances represented 14 percent of all clearances, compared to 14 percent in 2016.

Juvenile Clearances in the Violent Crime category represented 13 percent of the total cleared in 2017 compared to 11 percent in 2016. The clearance rates in Violent Crimes are: Homicide two percent, Rape 13 percent, Robbery 18 percent and Aggravated Assault 12 percent.

In the Property Crime category, clearances involving Juvenile offenders represented 14 percent of the total cases cleared in 2017, compared to 14 percent in 2016. The clearance rates in Property Crimes are: Burglary 15 percent, Larceny-Theft 13 percent and Motor Vehicle Theft 25 percent.

STOLEN PROPERTY VALUES

The total value of Property Stolen during 2017 was $222,264,241 which represents a two percent increase from 2016. Recovered Property amounted to $57,685,700 which is 26 percent of the total stolen, resulting in a $164,578,541 property loss to victims in the State of Maryland during 2017. This property loss represents an increase of seven percent when compared to the property loss in 2016.

MURDER

MURDER

Murder and non-negligent manslaughter is the willful (non-negligent) killing of one human being by another.

VOLUME AND RATE

During 2017, a total of 569 murders were reported. This represents a 6.5 percent increase, over 2016. Murder accounted for two percent of all violent crime and less than one percent of the crime index. In 2017, there were 9.4 murders per 100,000 of population.

ANALYSIS OF MURDER

In 2017, 339 murders were cleared with two percent of these clearances involving only juvenile offenders. A total of 342 persons were arrested for murder during 2017. A breakdown of persons arrested for murder was 87 percent male, 13 percent female, four percent juvenile, 73 percent Black, 26 percent White and less than one percent consisting of American Indian, Asian and Pacific Islander.

During 2017, 258 of the murder victims were in the 18 to 29 age group, representing 45 percent of the total. There were 43 juvenile victims of murder, accounting for eight percent of the total murder victims. Firearms were used in 78 percent of the reported murders in 2017. This represents a nine percent increase in their use when compared to the use of firearms in 2016. The next most used weapon was a knife, accounting for 11 percent of the reported murders in 2017. In 2016, knife accounted for 12 percent of the reported murders.

Murder Weapon

Firearms 78%
Knife 11%
Personal Weapon 3%
Blunt Object 2%
Other/Unknown 6%
Drug related murders accounted for four percent of the total in 2017. In 2016, drug related murders accounted for one percent of the total.

Family members, as offenders, accounted for seven percent of the total murders in 2017, compared to 11 percent in 2016. Of the family members as offenders, husband and wife or boyfriend and girlfriend (those who had lived together) reflect two percent of the total murders reported.

Additionally, an acquaintance is listed in 14 percent of the murders reported in 2017. Strangers and unknown relationships accounted for two other large categories with 10 percent and 81 percent respectively.

RAPE

RAPE

The new Rape definition is "Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim".

The prior Rape definition was "The carnal knowledge of a female forcibly and against her will".

VOLUME AND RATE

During 2017, 1,773 rapes were reported. This represents a two percent decrease over 2016. Rape accounted for six percent of the violent crime and one percent of the crime index. In 2017, there were 29 rapes per 100,000 of population.

ANALYSIS OF RAPE

Under the category of rape, rape by force accounted for 94 percent of the total report and six percent were attempt to rape.

In 2017, 50 percent of rapes were cleared with 13 percent of these clearances involving only juvenile offenders.

A total of 432 persons were arrested for rape during 2017. A breakdown of persons arrested for rape was, 98 percent male, two percent female, 17 percent juvenile, 48 percent Black, 51 percent White and one percent consisting of American Indian, Asian and Pacific Islander.

ROBBERY

ROBBERY

Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

VOLUME AND RATE

During 2017, there were 11,295 robbery offenses reported. This represents a four percent increase over 2016. Robbery accounted for 37 percent of the violent crime and seven percent of the crime index. In 2017, there were 187 robberies per 100,000 of population.

ANALYSIS OF ROBBERY

During 2017, 55 percent of the robberies were committed on the street, while only one percent were bank robberies. Of the total number of robberies committed, firearms accounted for 45 percent, while robberies committed with personal weapons accounted for 37 percent of the total.

In 2017, 3,321 robberies were cleared with 18 percent of these clearances involving only juvenile offenders.

A total of 3,666 persons were arrested for robbery during 2017. A breakdown of persons arrested for robbery was 89 percent male, 11 percent female, 33 percent juvenile, 77 percent Black, 22 percent White and one percent consisting of American Indian, Asian and Pacific Islander.

DOMESTICALLY RELATED CRIMES

DOMESTICALLY RELATED CRIMES

BACKGROUND

The Domestic Violence Act of 1994 mandated that all law enforcement agencies in Maryland submit copies of incident reports involving domestic violence to the Maryland Department of State Police. The Maryland UCR Program created a revised Domestic Violence (formerly known as Battered Spouse) data collection form. The new form allowed for the collection of more data based upon a revised definition of a domestic violence incident under the Maryland UCR Program guidelines.

In 2012, HB1146/SB647 "Domestically Related Crimes" was signed into law to help improve the recording and tracking of domestic violence crimes. Maryland does not have a distinct crime of domestic violence, therefore, the new law helps law enforcement, advocates, prosecutors and judges better protect domestic violence victims and set more appropriate conditions for abusers.

To better align with Maryland Law, the Maryland UCR Program expanded the definition of domestic violence to include ten additional relationships in calendar year 2013. Prior to 2013, the only reported relationships between domestic violence victims and offenders were husband, wife and cohabitant. This expansion of the additional relationships explains the increase in the total number of domestically related crimes reported. The title of the reporting program was also changed to the Maryland Domestically Related Crime Reporting Program.

Under the Maryland UCR Program, the definition for a domestically related crime mirrors HB1146/SB647: "any crime committed by a suspect (respondent) against a victim who is a person eligible for relief, as defined in §4-501 of the Family Law Article or who had a sexual relationship with the suspect within 12 months before the commission of the crime. This also includes homosexual relationships."

A "person eligible for relief", as defined in *§4*-501 of the Family Law Article includes*:

- The current or former spouse of the respondent;

- A cohabitant of the respondent;

- A person related to the respondent by blood, marriage, or adoption;

- A parent, stepparent, child, or stepchild of the respondent or the person eligible for relief who resides or resided with the respondent or person eligible for relief for at least 90 days within 1 year before the filing of the petition;

- A vulnerable adult;

- An individual who has a child in common with the respondent.

Prior to 1996, the statistical information collected was restricted to assaults to a domestic partner and excluded individuals of the same sex who were in an intimate relationship and who are cohabiting or have cohabited. The additional information now collected provides a more comprehensive report.

DOMESTICALLY RELATED CRIMES

Based on the previous definition of domestic violence, there were a total of 13,829 domestic violence crimes reported statewide in 2017, as compared to 13,675 crimes in 2016. This represents a one percent increase in the number of domestic violence crimes. Due to the improved recording and tracking made possible by the 2012 legislation, an additional 18,676 domestically related crimes were reported in 2017, representing the inclusion of more types of domestic relationships. The breakdown is as follows:

DOMESTIC VIOLENCE
Total Number of Domestic Violence Incidents under the Previous Definition of Domestic Violence
RELATIONSHIPS

Domestic violence reporting includes the nature of the victim's relationship with his or her abuser. **Table 1** represents the relationships used under the previous definition of domestic violence. **Table 2** (page 52) represents the ten additional relationships reported as of 2013 which, when added to **Table 1**, represents the totals under the new definition of domestic violence. The breakdown is as follows:

Table 1	2013	2014	2015	2016	2017

*In 2013, domestic violence data reporting was expanded to include additional relationships and reflect changes in Maryland Law. This change explains the increase in total number of Domestically Related Crimes reported.

**In 2015 the National Uniform Crime Reporting Program changed the definition of Rape, resulting in an increase in the total number of Rapes.

ASSAULTS

Assault is the most frequent type of domestically related crime reported. Under the new Domestically Related Crime definition, there were a total of 27,823 domestic assaults in 2017. This represents 86 percent of all domestically related crimes. There were 5,178 domestic assaults reported as an "aggravated domestically related assault," which means an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. Aggravated assaults represented 19 percent of the total reported domestically related assaults in 2017.

*In 2013, domestic violence data reporting was expanded to include additional relationships and reflect changes in Maryland law. This change explains the increase in the total number of Domestically Related Crimes reported.

CLEARANCES

There are two ways of clearing a case. One is by making an arrest and charging the person(s) with the offense. The second is known as an exceptional clearance. Exceptional clearance means the police know the identity and location of the person(s) who committed the offense and have enough information to arrest them. However, there is some reason beyond their control that prevents them from making the arrest.

The arrest and exceptional clearances reported reflect the disposition at the time the domestically related crime report form was forwarded to the UCR Program. These reports are not updated; therefore, other arrests and exceptional clearances may occur, but would not be reflected in the following totals.

	*2013	2014	2015	2016	2017
Arrest	11,098	10,936	11,775	11,541	10,837
Exceptional	8,649	8,366	8,318	8,860	11,705
Unknown	8,038	7,940	10,441	10,774	9,963
TOTAL	***27,785**	**27,242**	**30,534**	**31,175**	**32,505**

During 2017, 69 percent of all domestically related cases were cleared. A breakdown of the clearances in 2017 includes 33 percent by arrest, 36 percent by exceptional clearance and 31 percent unknown.

*In 2013, domestic violence data reporting was expanded to include additional relationships and reflect changes in Maryland law. This change explains the increase in the total number of Domestically Related Crimes reported.

*In 2013, domestic violence data reporting was expanded to include additional relationships and reflect changes in Maryland law. This change explains the increase in the total number of Domestically Related Crimes reported.

**In 2015 the National Uniform Crime Reporting Program changed the definition of Rape resulting in an increase in the total number of Rapes.

CARJACKING

CARJACKING

Since 1992, the UCR Program has collected data on a type of robbery popularly called "carjacking". A definition was developed to identify the term "carjacking". The definition is:

> "Carjacking" is a robbery or attempted robbery where the primary objective is to obtain the victim's motor vehicle and the victim is in the vehicle or in very close proximity to the vehicle".

In 2017, there were 822 carjacking's representing a 28 percent increase over the 644 carjackings reported in 2016. Additionally, 79 Motor vehicle robberies were reported that did not meet the carjacking definition. In 2016, 34% of carjacking crimes occurred between the hours of 9:00 P.M. and 12:00 A.M., inclusive. The highest number of carjacking crimes occurred on Saturday and Sunday.

Carjackings in which firearms were used accounted for 65 percent or 535 offenses. The handgun was the predominant choice of firearm, accounting for 64 percent or 524 of all carjackings.

VICTIMS

There were 876 victims of carjackings reported in 2017. By gender, the 876 victims of carjackings were made up of 68 percent male and 32 percent female. Blacks accounted for 56 percent of the carjacking victims, 32 percent white, and all other races combined equaled 12 percent. There can be multiple victims in any occurrence.

The following reflects the sex, race, age and injures of the reported victims:

Sex

	2013	2014	2015	2016	2017
Female	116	107	154	224	280

OFFENDERS

This report only captures details on six offenders per carjacking. In 2017, there were 1,685 detailed offenders involved in carjackings. By gender, the detailed perpetrators of carjackings were 95 percent male, three percent female and two percent unknown.   The carjacking offenders were 93 percent black, three percent white, and four percent for all other races combined with the unknown.   The following reflects the sex, race and age of the reported offenders:

Sex

	2013	2014	2015	2016	2017
Female	20	23	22	42	53

Unknown	23	15	45	32	58
TOTAL	**541**	**604**	**899**	**1,171**	**1,685**

Age

The ages of the known offenders ranged from 10 to 65, with 42 percent being between 16 to 25 years of age inclusive.

CLEARANCES

An offense is cleared or solved for crime reporting purposes by either arrest or exceptional means.   As with the domestic violence offenses, the carjacking clearances are not updated. The totals in the "None" category appear higher due to collection limitations as ongoing investigations are continuing and may clear a carjacking offense at a later time.

	2013	**2014**	**2015**	**2016**	**2017**

INDEX OFFENSE DATA

The tables contained within this section were designed to provide quick reference to statistical crime information relative to the different reporting areas of the State of Maryland.

The tables are broken down by Region. Within each Region information is listed in County name sequence and is further detailed to show the activity experienced by individual police agencies. The general identifying descriptions which indicate the reporting areas are listed and defined as follows:

Regional Total   -   This line indicates the total activity of all the Counties within the indicated Region.

County Total   -   This line indicates the total activity of all reporting Agencies within the indicated County.

Sheriff   -   This line indicates the total activity reported by Sheriff's Offices. This includes activity which may have occurred within the corporate limits of towns in that County.

County Police Departments   -   This line indicates the total activity reported by County Police Departments. This includes activity which may have occurred in the corporate limits of towns in that County.

State Police   -   This line indicates the total activity reported by all State Police installations within the indicated reported area. This includes activity which may have occurred within the corporate limits of towns in that County.

Municipal Police Departments   -   This line indicates the total activity reported by the specified police departments and includes only those crimes which were handled by that department.

There are five regions used in the Maryland Uniform Crime Reporting Program which are listed below.

Region I – Eastern Shore

Caroline County
Cecil County
Dorchester County
Kent County
Queen Anne's County
Somerset County
Talbot County
Wicomico County
Worcester County

Region II – Southern Maryland

Calvert County
Charles County
St. Mary's County

Region III – Western Maryland

Allegany County
Carroll County
Frederick County
Garrett County
Washington County

Region IV – Washington Metropolitan

Montgomery County
Prince George's County

Region V – Baltimore Metropolitan

Anne Arundel County
Baltimore City
Baltimore County
Harford County
Howard County

Crime Rates for the individual agencies are not calculated in the following table because of overlapping jurisdictions in many cities of municipal, county and state law enforcement agencies. This table contains the offenses as reported by the individual agencies with crime rates for the county and region totals.

MUNICIPALITY CRIME RATES

MUNICIPALITY CRIME RATES

Crime rates for individual cities and towns are listed in the following table. The rates for many cities are based on combined data reported by municipal, county and state law enforcement agencies due to overlapping jurisdiction. For the purpose of this report, data for cities lying in several counties has been shown in only on county.

		CRIME RATE	TOTAL OFFENSES	MURDER	RAPE	ROBBERY	AGGRAVATED ASSAULT	BREAKING OR ENTERING	LARCENY THEFT	M/V THEFT
REGION I										
CAROLINE COUNTY

ARREST DATA

ARREST DATA

The Maryland UCR Program requires the submission of monthly reports of persons arrested in the State. A record of arrest activity for both Part I and Part II crimes are received from state, county and municipal law enforcement agencies showing the age, sex and race of persons arrested. Traffic arrests, except Driving Under the Influence, are not reported.   In 2015 two new arrest categories were added which are Human Trafficking; Commercial Sex Act and Involuntary Servitude. A total of 200,167 arrests for Part I and Part II criminal offense were reported during 2017. In 2016, there were 202,108 arrests for Part I and Part II criminal offenses. This represents a one percent decrease from the previous year. Based on 2017 population estimates, there were 3,307.4 arrests per 100,000 of population in Maryland. This represents a two percent rate decrease over 2016.

A person is counted on the monthly arrest report each time the individual is arrested. This means that a person may be arrested several times during a given month and would be counted each time.   However, a person is counted only once each time regardless of the number of crimes or charges involved.   A juvenile is counted as "arrested" when the circumstances are such that, if the juvenile was an adult, an arrest would have been counted or when police or other official action is taken beyond a mere interview, warning or admonishment.

Arrest figures do not indicate the number of individuals arrested or summoned since, as stated above, one person may be arrested several times during the month. However, arrest information is useful in measuring the extent of law enforcement activities in a given geographic area, as well as providing an index for measuring the involvement in criminal acts by the age, sex and race of perpetrators.

In both 2016 and 2017, 19 percent of all reported arrests were for Crime Index Offenses. Analysis of Crime Index Arrest Data indicates that larceny-theft comprised the highest percentage of all arrests for Crime Index Offenses, with 51 percent of the total in 2017. The drug abuse, other assaults, driving under the influence and disorderly conduct categories recorded the highest percentage of arrests for Part II offenses. These offenses accounted for 41 percent of the total arrests for Part II offenses in 2017.

5 YEAR TREND

	5 YEAR AVERAGE	2017	2016	2015	2014	2013
Juvenile	23,602	21,417	21,048	22,705	24,564	28,275
Adult	196,046	178,750	181,060	189,918	213,271	217,230
TOTAL	**219,648**	**200,167**	**202,108**	**212,623**	**237,835**	**245,505**

VIOLENT CRIME ARRESTS

Violent Crime arrests represented 30 percent of all arrests for Crime Index Offenses and six percent of the total arrests. In 2016 Violent Crime arrests represented 28 percent of all arrests for Crime Index Offenses and five percent of the total arrests.

A further evaluation indicates that arrests for robbery and aggravated assault represented the highest percentage of the total arrests for violent crimes with 33 and 60 percent, respectively.

PROPERTY CRIME ARRESTS

Property Crime arrests represented 70 percent of all arrests for Crime Index Offenses and 13 percent of the total arrests. In 2016 Property Crime arrests represented 72 percent of all arrests for Crime Index Offenses and 14 percent of the total arrests.

The highest percentage of property crime arrests, 73 percent, continues to occur in the larceny-theft category.

GAMBLING ARRESTS

A total of 136 gambling arrests were reported during 2016. In 2017, 123 persons were arrested for gambling violations, resulting in a 10 percent decrease.

Arrests for gambling offenses amounted to less than one percent of all reported Part I and Part II arrests in 2017. Persons under the age of 18 made up 36 percent of all gambling arrests in 2016, compared to 15 percent in 2016.

DRUG ABUSE VIOLATION ARRESTS

Information pertaining to drug abuse violation arrests is collected according to specific drug categories and whether the arrest was for sale or manufacture or possession of a specific drug. During 2017, a total of 35,339 arrests for drug abuse law violations were reported, compared to 33,093 drug abuse law violation arrests in 2016, resulting in a seven percent increase.

Evaluation of the reported data suggests that 26 percent of all persons arrested for drug abuse violations were under 21 years of age, and seven percent were under 18 years of age in 2017, compared to 30 and seven percent respectively in 2016.

Analysis of individual categories showed that the highest percentage of drug arrests, which involved marijuana, was 57 percent in 2017 and 54 percent in 2016. Drug abuse arrests for opium or cocaine and derivatives increased to 32 percent in 2017 from 28 percent in 2016. Of the total drug abuse arrests in 2017, 79 percent were for possession, while 21 percent were for sale or manufacture. In 2016, 78 percent were for possession while 22 percent were for sale or manufacture.

When compared to 2016, arrests for possession of marijuana increased 14 percent in 2017, while possession of opium or cocaine and derivatives decreased four percent. Arrests for sale or manufacture of marijuana increased six percent, while arrests for sale or manufacture of opium or cocaine and derivatives decreased one percent in 2017.

To aid in the study of drug arrests a chart by county is provided.

LAW ENFORCEMENT OFFICERS ASSAULTED

LAW ENFORCEMENT OFFICERS ASSAULTED

The following information is based on a detailed monthly collection of data in the UCR System regarding the problem of assaults on local, county and state law enforcement officers.

A total of 2,449 law enforcement officers in Maryland were victims of assault in the line-of-duty during 2017, compared to 2,672 assaults during 2016, resulting in an eight percent decrease.

The rate of assaults on law enforcement officers for the State was 16 assaults per every 100 sworn officers in 2017, compared to 17 assaults per ever 100 sworn officers in 2016.

A weapon was used in 14 percent of all assaults, while physical force was used 86 percent of the time a police officer was assaulted in 2017.

The greatest number of assaults occurred while officers were responding to disturbance calls (family disputes, man with a gun, etc.) and between the hours of 6 P.M. and 12 A.M.

A total of 2,322 assaults on law enforcement officers were cleared during 2017, amounting to a 95 percent clearance rate.

LAW ENFORCEMENT EMPLOYEE DATA

LAW ENFORCEMENT EMPLOYEE DATA

LAW ENFORCEMENT EMPLOYEE DATA

The UCR Program in Maryland incorporates the collection of pertinent data relating to law enforcement agencies in the State. Information regarding law enforcement employee strength is discussed in this section.

This information is submitted by county, municipal and state law enforcement agencies and compiled on an annual basis. Specific information concerning the number of law enforcement employees reflects the status as of October 31, 2017.

LAW ENFORCEMENT EMPLOYEE RATES

In 2017, the average number of full-time law enforcement employees (state, county and municipal) including civilian employees, amounted to 3.5 for each 1,000 inhabitants of the State. The rate based on sworn personnel only amounted to 2.7 per 1,000 in population.

The ratio of law enforcement employees per 1,000 population in any given area or municipality is influenced by a number of factors, much the same as the crime rate. The determination of law enforcement strength for a given county or municipality is based on factors such as population density, size and character of the community, geographic location, proximity to metropolitan areas and other conditions which exist in the area generating the need for law enforcement services. Employee rates also differ among agencies since in particular there is a wide variation of the responsibilities and level of activity within various law enforcement agencies. The information in this section relates to reported law enforcement employee strength and should not be interpreted as recommended strength for any area.

CIVILIAN EMPLOYEES

The personnel of each law enforcement agency differ as to the demands and responsibilities placed before them. Many law enforcement officers are fully occupied with clerical tasks and are not free to perform active law enforcement duties. Some law enforcement administrators use civilians in this capacity, thus freeing the sworn personnel for actual law enforcement-related services.

As of October 31, 2017, 4,817 or 23 percent of the total number of law enforcement agency employees in Maryland were civilian.

** An additional homicide occurred in 2007 and 2012 which was not reported until 2008 and 2014 respectively.

*** A homicide was removed in 2010 after being ruled justifiable.

****In 2015 the National Uniform Crime Reporting program changed the definition of Rape resulting in an increase in the total number of reported Rapes.
